- Pleasant but powerful tropical fragrance lasts up to 4 weeks
- Sprays clear and dries to an invisible gel that vaporizes slowly over time

DESCRIPTION:

Gelled room odor control sprays like a liquid and clings like a gel so it continuously releases fragrance over time. Perfect for spraying onto walls, floors, carpeting, trash cans, ceiling tiles, urinals, toilets, and sinks. When sprayed on air intakes, air vents, fans, and door frames, the fragrance is circulated throughout the entire room faster for more immediate results.

APPLICATION:

Use full strength, or diluted in solution. For use in: Waste containers, laundry rooms, locker rooms, garbage cans, basements, sickrooms, washrooms, kitchens, vaults and/or wherever else an objectionable odor may occur.

DIRECTION FOR USE:

Spray a fine mist on porous and non-porous surfaces such as ceiling tile, carpets, walls, brick, and concrete block. Ideal when sprayed above ceiling fans, on AC vents, on door frames, or on air conditioner filters. Reapply after product vaporizes and more odor control is desired.
